McNair Scholars Program

Letter from the Director

C 2018 ☒ 2019

Grammatically Speaking: *The Literature Review*

1. What is a literature review?

A literature review is a critical analysis of the existing research on a particular topic. It is a survey of the literature that has been published on a specific subject, and it is used to identify the current state of knowledge in a field.

A literature review is a critical analysis of the existing research on a particular topic. It is a survey of the literature that has been published on a specific subject, and it is used to identify the current state of knowledge in a field.

2. How does a literature review relate to my research question?

A literature review is a critical analysis of the existing research on a particular topic. It is a survey of the literature that has been published on a specific subject, and it is used to identify the current state of knowledge in a field.

3. Why do we write literature reviews?

A literature review is a critical analysis of the existing research on a particular topic. It is a survey of the literature that has been published on a specific subject, and it is used to identify the current state of knowledge in a field.

1. Find a focus

A literature review is a critical analysis of the existing research on a particular topic. It is a survey of the literature that has been published on a specific subject, and it is used to identify the current state of knowledge in a field.

2. Read with a Purpose

A literature review is a critical analysis of the existing research on a particular topic. It is a survey of the literature that has been published on a specific subject, and it is used to identify the current state of knowledge in a field.

3. Additional Considerations:

- Use evidence -
- Use quotes sparingly - A
- Keep your own voice -
- Use caution when paraphrasing -

Summary: Your Literature Review should:

- demonstrate why your research should be conducted*
- Summarize important information but remember to synthesize that information as well*
- 1 interpret information in a new way*
- 2*
